A leading institution both in France and abroad and a key stakeholder in the world of higher education and research, AgroParisTech and the institutions from which it stems have, over a period now spanning nearly 200 years, brought together ever-stronger academic communities committed to offering solutions to the central challenges posed by the living world - fostering knowledge and understanding to enable humanity to better safeguard our ecosystems, feeding populations while preserving natural resources, and sustainably managing the environment. Together, we want to set the course for a sustainable world both today and in the future, in line with the UN's Sustainable Development Goals.

To achieve this, AgroParisTech educates future engineers, executives, doctors, and managers in the fields of life sciences and the environment by exposing them to field work and research and by maintaining close partnerships with professional environments.

Agro Paris offers the following:

- An engineering program
- An extensive selection of master's degrees
- Ph.D. programs offered in association with prestigious French and international universities
- A continuing professional education offering made available under the "AgroParisTech Executive" brand.

AgroParisTech is active across five major fields, which correspond to the industries of its staff and graduates:

- Agricultural and forestry resources
- The environment
- The agro-industrial transformation
- Biotechnology
- All services that tie into production and sales activities

## Arab Industrial Development Standardization & Mining Organization (AIDSMO)

A-14

The Arab Industrial Development, Standardization and Mining Organization (AIDSMO) is a specialized organization that operates under the umbrella of the League of Arab States (LAS), in the fields of industry, standardization and mining. It has its own legal entity and administrative and financial autonomy and was founded as a result of the merger of the Arab Organization for Mineral Resources, the Arab Organization for Standardization and Metrology and the Arab Organization for Industrial Development as the main Organization. AIDSMO has 21 Arab Member States. AIDSMO aims to uphold inclusive and sustainable industrial development in the Arab countries and keeps abreast of ongoing advancements at the global level in the fields of industry, standardization and mining.

### Objectives

- Contribute to the development of the industrial sector and achieve industrial coordination and integration in Arab countries
- Encourage Arab industries based on creativity, innovation, knowledge and technology to promote their competitiveness
- Upgrade quality infrastructure in Arab countries to facilitate inter-Arab trade
- Contribute to the development of mining sector in Arab countries

- Achieve Arab industrial and mining coordination and integration by employing the available methods and means
- Issue Unified Arab Standards for administrative products and systems
- Assist Arab countries and Bodies in the study of industrial and mining projects
- Prepare studies and researches pertaining to the strategy of the industrial and mineral resources
- Provide information, statistics and studies on various industrial branches to enhance cooperation
- Hold pertinent training sessions, conferences, seminars and technical meetings
- Collaborate with Arab and international relevant Bodies, organizations and economic groupings
- Coordinate the Arab countries' stances at the international conferences and events on industrial development, standardization and mining issues.

## Bellmer GmbH

**C-15**

Bellmer is an internationally high-class technology supplier with two divisions: Paper- and Separation Technology. Our mission is to be the customer's personal partner.

### Paper Technology:

- Complete Paper Machines: Fine, packaging, and specialty paper
- Stock Preparation: Bale handling, refiners, deflakers
- Wet & Dry End Solutions: Headboxes, press sections, dryers
- Coating & Finishing: Coaters, winders, reelers
- Automation: Integrated paper production systems
- Service: Repairs, spare parts, and 24-hour support

[www.bellmer.com](http://www.bellmer.com)

[info@bellmer.com](mailto:info@bellmer.com) | +49 7233 74147

### Separation Technology:

- Municipal Applications: Wastewater and sludge dewatering
- Industrial & Paper Industry: Thickening, dewatering, filtration
- Food & Beverage: Fruit presses, juice extraction
- Biogas: Waste dewatering and digester systems
- Automation & Service: Process optimization and maintenance

## Beni Suf Company for Water & Wastewater

**B-16  
- B-25**

Serving the Beni Suf Governorate, this company provides water supply and sanitation services. It aims to enhance the quality and reliability of its services through continuous improvement and community engagement.

- Potable water provision
- Wastewater management
- Infrastructure maintenance
- Customer service
- Expansion of service networks

# **NOVA<sup>®</sup>** **INDUSTRIES**

## **Nova Industries Company**

**A-04**

NOVA<sup>®</sup>Industries is an industrial establishment in 10th of Ramadan city that is mainly engaged in the design, manufacture and supply of state-of-the-art Water and Wastewater Treatment mechanical equipment. All the intended equipment is manufactured in Egypt under “ license Agreements “ provided by leading international firms that own proven technologies from US and European origins. All equipment parts in contact with water are made of high-quality stainless steel.

We bring the best of both worlds – the agility and local presence of a community-focused enterprise, combined with the expertise and technology licensed from global industry leaders. Our unique approach ensures that you have access to world-class manufacturing capabilities right here in our local community.

We firmly believe that NOVA<sup>®</sup>Industries can be a vital asset in any supply chain and manufacturing.

- Water treatment equipment package comprising (Flash mixers, Flocculation Mixers, lamella settlers, HCV And Dyna filters under license from Parkson)
- Penstocks under license of Muhr. MONO Belt (Dewatering system under license from Teknofanghi)
- Aeration system ( Tube diffusers, Airrex (aeration pipes), Disc diffusers fine and coarse under license from OTT)
- Coarse bubble diffusers, SBR Decanters, Stainless steel Disc filters under licence from Invent.
- Air blowers under license from SWAM
